BLOCK 3: Economic Policy / Project Evaluation

LECTURE 3.5: Ethics and Advocacy

DISPLAYS

speaker: Prof. Joseph M. Sussman
MIT

October 10, 2001
**Work Remaining on This Year’s Project:**

- Follow up on leads provided in the June 5 conference call.
- Prepare a working paper that builds upon what the industry is already doing and what we know from the JR East, VNTSC, and other research.
- Identify projects for next year.

**Possible Work for Next Year:**

- Risks of sabotage and attacks.
- Models of global risk for industry.
- Engineering-based models that illustrate effects of factors other than train-miles or employee-hours on risk (e.g., application of VNTSC model).
